Cassiodor. variar. lib. 10. epist. 3.

Desiderabilis eruditio literarum, quae naturam laudabilem eximiè reddit ornatam. Ibi prudens invenit, unde sapientior fiat: ibi bellator reperit, unde animi virtute roboretur: inde Princeps accipit, quemadmodum populos sub aequalitate componat. Nec aliqua in mundo potest esse fortuna, quam literarum non augeat gloriosa notitia.

Genere, virtute, doctrinâ Nobilissimo,
vereq Generoso, Dn. GODEFRIDO à Warnstatt,
Equiti Marchico, cùm felicem nostram ARGENTINAM
invisens, me humaniter appellare dignaretur,
adfectûs officiosi fidem hac manu meâ firmabam,
Matthias Berneccerus, Acad. Prof. pub.
5. Januarii Juliani, a°. 1625.

B E R N E G G E R, Mathias - German Philosopher and Mathematician

B. February 8, 1582. Hallstadt, Austria
D. February 3, 1640. Strassburg

Author of a "Manual of Mathematics" including his well known trigonometric tables (1619). He translated a number of Galileo Galilei's works into Latin and had a very interesting exchange of scientific letters with Kepler and Grotius.

1. A.ALBLF.S. Argentorati (Strassburg) June 25, 1621.
